1012 1012-1012	26	Minus	26
INDEPENDENT ANCHORAGE	2	Minus	3

Table 1. The relationship between the number of species and the area of forest cover in each state.

The graph illustrates the relationship between RATE (X-axis) and ADDITIONAL FEE (Y-axis). The Y-axis has three horizontal grid lines labeled 'A', 'B', and 'C' from top to bottom. Three curves are plotted:

- A straight line starting at point A on the Y-axis and increasing linearly.
- A curve starting below point B on the Y-axis, rising to cross the line at point B, and then decreasing.
- A curve starting at point C on the Y-axis and increasing to cross the line at point B.

 The X-axis has two vertical grid lines labeled '1' and '2'. The intersection points are labeled as follows:

- Line A: (1, A)
- Curve 1: (1, B), (2, C)
- Curve 2: (1, C)

 Below the graph, the labels 'TOTAL' and 'ADDITIONAL FEE' are aligned under their respective curves.

RATE	ADDI TIONAL FEE
1.0
